

# FITC-ACT WORKSHOP 2024

CURRENT TOPICS IN THE FIELD OF ADOPTIVE CELL THERAPY

co-organized with

29<sup>TH</sup> OF MAY 2024 - 10H30-18H

INSTITUT CURIE, PARIS

With the support of the UNITC consortium

- 10h20**      **Welcome and introduction**  
*Emmanuel Donnadieu (FITC – Cochin Institute), Bertrand Nadel (CALYM – Carnot Institute), Loredana Saveanu (SFI - Inflammation Research Centre)*
- 10h30**      **Highlights of 2023-24 in the field of adoptive cell therapy**  
*Sebastien Kobold (University of Munich): Basic Research*  
*Marie-Thérèse Rubio (University Hospital of Nancy): Hematology*  
*Aurore Dougé (University Hospital of Clermont-Ferrand): Solid tumors*
- 11h00**      **Flash Talks I in association with the Training Network for Optimizing Adoptive T cell Therapy of Cancer (T-OP)**  
*Chairs: Aurore Dougé (University Hospital of Clermont-Ferrand), Romain Loyon (EFS Besançon), Sébastien Viel (University Hospital of Lyon)*
- 11h50**      **Flash presentation **SONY****
- 12h00**      **Lunch break**
- 13h00**      **Keynote lecture: Bernard Malissen (CIML). Lessons learned from TCR signaling pathways to make better CARs**  
*Chair: Jacques Nunes (Cancer Research Center of Marseille)*
- 13h30**      **Interactive session I: Beyond CD19 and BCMA CAR-T cells, which cell product will enter the clinical practice in the next few years?**  
*Chairs: Marion Alcantara (Curie Institute) and André Baruchel (University Hospital Robert Debré)*
- 13h30**      **GD2 CAR-T in neuroblastoma, Concetta Quintarelli (OPBG - Bambino Gesù Children's Hospital)**
- 13h50**      **CAR T against T cell Lymphomas, Paul Maciocia (University College London)**
- 14h10**      **TCR-TILs in melanoma, Sebastian Klobuch (Netherlands Cancer Institute)**
- 14h30**      **Round table**

# FITC-ACT WORKSHOP 2024

CURRENT TOPICS IN THE FIELD OF ADOPTIVE CELL THERAPY

co-organized with

29<sup>TH</sup> OF MAY 2024 - 10H30-18H

INSTITUT CURIE, PARIS

With the support of the UNITC consortium

- 15h00**      **Flash Talks II in association with the Training Network for Optimizing Adoptive T cell Therapy of Cancer (T-OP)**  
*Chairs: Aurore Dougé (University Hospital of Clermont-Ferrand), Romain Loyon (EFS Besançon), Sébastien Viel (University Hospital of Lyon)*
- 15h50**      **Flash presentation**      
- 16h00**      **Coffee break**
- 16h30**      **Interactive session II: Comparative immune monitoring of patients treated with CAR-T and bispecific antibody T cell engagers**  
*Chair and introduction: Cécile Alanio (Curie Institute)*
- 16h30**      **Introduction of the immunomonitoring UNITC working group**, Karin Tarte (University of Rennes)
- 16h40**      **Immune monitoring of CAR-T-treated patients**, Marie-Thérèse Rubio (University Hospital of Nancy)
- 17h10**      **Immune monitoring of bispecific antibody-treated patients**, Cécile Alanio (Curie Institute) and Yannick Simoni (Cochin Institute)
- 17h40**      **Round table: How to build guidelines from the adoptive cell therapy group of the FITC?**  
*Chair: Sophie Caillat-Zucman (INSERM - Saint Louis Hospital)*  
*Concetta Quintarelli (OPBG - Bambino Gesù Children's Hospital), Marie-Thérèse Rubio (University Hospital of Nancy), Yannick Simoni (Cochin Institute), Marguerite Vignon (Hôpital Cochin), Karin Tarte (University of Rennes)*
- 18H00**      **Awards for the two best flash-talks**  
**Concluding remarks**
- 18h10**      **Cocktail**
